

**APPLICATION**

Type E trims are used to create vertical or horizontal straight edges at the end of a run of plasterboard, or where a raised or recessed feature is required. The trims can be used in both wall and ceiling applications and can be factory formed into column rings.

**PRODUCT INFORMATION**

Supplied in 3000mm lengths, extruded from architectural grade aluminium alloy to BS 1474. Pre-punched with diagonal fixing slots and holes suitable for fixing by drywall screws. The standard finishes are white polyester powder coating to RAL 9010, 20% Gloss, or to order in a full palette of RAL colours, to match and enhance any interior scheme. Unpainted trims also available for onsite painting/spraying, please check with your paint supplier for any additional primer products that may be required. QIC cannot accept any responsibility for the painted finish of products supplied unpainted. Non-standard lengths and alternative factory applied finishes are available to special order. Trims with a custom dimension between 3mm-100mm are available to special order.
