

SUSPENDED CEILING TRIMS DATA SHEET

EXTRUDED ARCHITECTURAL ALUMINIUM

TYPE
YPB
330

APPLICATION

Type YPB330 trims are used to create junction details between linear or tartan grid metal suspended ceiling systems and adjacent areas of plasterboard. Feathered full tile to plasterboard, 15mm shadow gap.

PRODUCT INFORMATION

Supplied in 3000mm lengths, extruded from architectural grade aluminium alloy to BS 1474. Pre-punched with diagonal fixing slots and holes in the plastering fin suitable for fixing by drywall screws. The standard finishes are white polyester powder coating to RAL 9010, 20% Gloss, or to order in a full palette of RAL colours, to match and enhance any interior scheme. Unpainted trims also available for onsite painting/spraying, please check with your paint supplier for any additional primer products that may be required. QIC cannot accept any responsibility for the painted finish of products supplied unpainted. Non-standard lengths, factory curving and alternative factory applied finishes are available to special order. Wedgelok cleats for straight joints, internal or external corners.
