DRYLINING TRIMS DATASHEET

APPLICATION

Type KE trims are used to create a sharp, minimal knife edge detail at the perimeter of suspended ceiling systems, often to enhance floating or rafts-style ceiling designs.

PRODUCT INFORMATION

QIC Trims are supplied in 3000mm lengths, extruded from architectural grade aluminium alloy in accordance with BS EN 755-9. Profiles are pre-punched with diagonal fixing slots and holes suitable for fixing with drywall screws.

Standard finishes are available in white polyester powder coating to RAL 9010, 20% gloss, or to order in a full palette of RAL colours to match and enhance any interior scheme.

Non-standard lengths, custom reveal sizes, factory curving, and alternative factory-applied finishes are available to special order.
